FR

Cette boîte contient: une réplique d'arme factice avec chargeur. Les AIR SOFT GUNS sont des modèles d'armes factices tirant des billes en plastique de 6 mm inoffensives. Ce modèle a une énergie comprise entre 0,08 joule et inférieure ou égale a 2 joules. **En France, la vente de ces produits est réglementée par le décret n°99-240 du 24 mars 1999, qui interdit la distribution des modèles noirs ou chromés dont l'énergie est comprise entre 0,08 et 2 joules aux moins de 18 ans non accompagnées. Ce décret ne concerne pas les modèles transparents, les game guns (oranges) et les mini guns, dont la distribution reste donc autorisée aux mineurs.**

• Distribution et vente interdite aux mineurs.
• Attention: Ne jamais diriger le tir vers une personne.

⚠️ SAFE GUN HANDLING

You should be fully familiar with the proper and safe handling of your gun. The basic principles of gun safety require you to always apply the following rules when handling the firearm.

• Always treat a gun as if it was loaded.
• Always put the safety of a gun to "safe" when loading it so that there can be no unintentional discharge.
• Keep your finger away from the trigger. It should be straight and should rest on the trigger guard.
• Only use the kind of projectiles suitable for your gun.
• Always keep the muzzle pointed in a safe direction.
• This gun may only be discharged in your own house, on authorized shooting ranges and inside enclosed private property. It is to be made sure that no projectile can leave the enclosed property.
• Keep the danger area of the projectile in mind.
• Never transport a loaded gun. Only load your gun when you intend to fire it.
• Never aim your airgun at persons or animals. Avoid ricochets. Never fire at smooth, hard surfaces or water.
• Before you discharge your gun, make sure that target and surrounding area are safe.
• Always make sure that the gun is not loaded when you transport it or take it from another person.
• Make sure that you always have full control over the muzzle of your gun, even if you stumble or fall down.
• Safety shooting glasses should always be worn when firing the gun.
• Always store your gun in a safe place and in unloaded condition. Unauthorized persons (persons not familiar with the use of guns, children) must not have access to it. Ammunition is to be kept in a separate place.
• This gun and its instruction manual may only be passed on to persons
  - who are fully familiar with its use and
  - who have reached the legally stipulated minimum age in the respective country.
• Modifications or repairs of guns are only to be effected by authorized agencies or by a skilled gunsmith.
• Never leave a loaded gun unattended.
• Only unloaded guns are to be handed over to another person.

REPAIR

A gun that does not work properly is dangerous. Do not attempt to repair this pistol if it needs service. Incorrect assembly could lead to dangerous malfunctions.
Caution: Repairs should only be completed by Umarex authorized centres.

⚠ CAUTION

For your own safety and the safety of others, carefully read these instructions before using this gun. Buyers and owners must observe all rules concerning the use and ownership of air guns. Modifying this gun may result in a change of its classification under guns law and is therefore prohibited. In such cases the manufacturer's warranty will immediately become void.

⚠ WARNING

Do not brandish or display this airgun in public - it may confuse people and may be a crime. Police and others may think this airgun is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

WARRANTY

During the legal warranty period, which begins on the date of purchase, Umarex will repair or replace your gun at no charge provided the defect was not caused by you. Return your gun to an authorized dealer along with a description of the problem and proof of purchase.

The air guns manufactured by Umarex GmbH & Co. KG are made according to the regulations of the PTB (Physikalisch-Technische Bundesanstalt), German federal law, the CIP regulations and the technical know-how of Umarex GmbH & Co. KG.

We will not assume any liability whatsoever if this product is exported to territories outside of Germany and as a consequence does not comply with domestic legal requirements of these territories. It will be the sole responsibility of the importer to ensure compliance with local laws and regulations.

TECHNICAL DATA

Item no.	2.6422 Ⓕ
System	CO$_2$ Airsoft
Caliber / Ammo	6 mm BBs
Capacity	13 rounds (BBs)
Energy	max. 1.6 J
Velocity	up to 125 m/s with 0.2 g BB
Drive	Semi-Auto
Trigger	Double Action
Color	black
Safety	manual
Barrel length	105 mm
Dangerous area up to	200 m
Weight	646 g
Length	185 mm

⬡ SAFETY

⚠ CAUTION

- Only handle your gun in its safe condition.
- Always make sure that the muzzle points in a safe direction.

SAFE

FIRE

⬡ PROBLEM SOLUTIONS

PROBLEMS	POSSIBLE CAUSES								
	Safety activated	CO_2 capsule not inserted	Gas / Battery / CO_2 capsule / Magazine empty	Dirty barrel	Extreme temperatures	Wrong ammunition	Ammunition badly loaded		
Faulty shooting direction			●	●	●	●	●		
Gun does not shoot	●	●	●			●	●		
Low shooting speed			●	●	●	●	●		

⚠ CAUTION

- Only use 12 g CO_2 capsules.
- For storage remove gas capsules.
- There may be a minor discharge of gas when you remove the gas capsules.
Make sure that your hands do not come into contact with discharged CO_2 gas. This may cause freezing of the skin. Do not expose the CO_2 cartridge to excessive heat and do not store it at temperatures exceeding 54°C. Always adhere to the warnings and safety instructions of the manufacturer on the gas cartridge in respect to handling and storage of a CO_2 gas container.

1. Press magazine catch.
2. Remove the magazine.

3. 6 mm Hex

3. Turn the piercing screw downwards.

4. Insert CO_2 capsule as shown.

5. 6 mm Hex

5. Turn the piercing screw in; CO_2 cartridge is pierced.

6. Insert magazine.
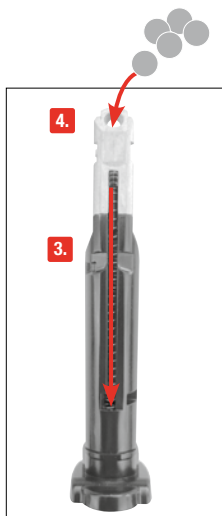

⚠ CAUTION

❶ Ø 6 mm ❷ ❸ ❹

Only use flawless BBs: Never use the following BBs:
❶ diameter larger than 6mm, ❷ with edges, ❸ both halves not aligned, ❹ used, soiled.
Warranty expires if non-recommended BBs are used. It's recommended to use precision
BBs from Umarex/Walther. To ensure proper operation of the magazine, protect it from dirt
and dust.

1. Press magazine release.
2. Remove the magazine.

3. Pull down and lock magazine follower.
4. Load BBs. Unlock follower.

5. Insert magazine.

SHOOTING

Put safety on "Fire"

1.
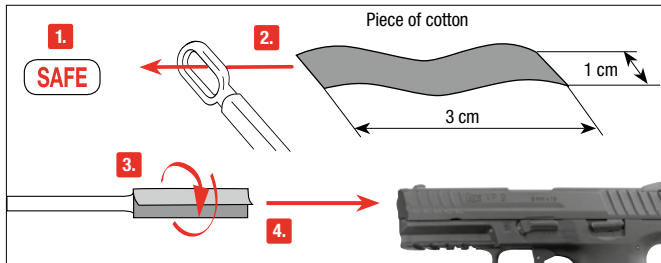

2. Cock

FIRE

3. Pull trigger

FIRE

⚠ **CAUTION**

When all the BBs have been fired, the slide will stay in the rear position. Press the slide stop lever to let the slide jump forward.

BARREL CLEANING

⚠ CAUTION

- Unload the gun before cleaning the gun.
- Do not force the rod into the barrel, as this could cause damage.
- Occasionally clean the metal parts on the outside. Use a cloth which has been slightly dampened with some gun oil.
- Never drip silicone oil directly into the barrel.

Put the safety on "safe". Prepare a thin rod with a length of approx. 30 cm. Attach a piece of cotton fabric to its end and clean the barrel with some silicone oil.

MAINTENANCE (FOR CO$_2$ GUN ONLY)

Clean your gun at regular intervals (250 shots) using a maintenance capsule. We recommend the use of the WALTHER maintenance capsule 4.1683.

How to use the maintenance capsule:
Remove all BBs from the gun, insert the maintenance capsule and pierce it.
Turn the gun upside-down so that the trigger is on top. Then point the gun in a safe direction and fire until the capsule is empty.
